Dear Gordon and Gillian,

Here is a copy of one of 13 E-mails I sent out tonight. My thoughts are with you both, at this difficult time. I pray that these will make a difference.

I also sent the information to our local MCS support group based out of Portland, OR., which will be forwarded to the local people in my area.

I just wish I could do more to help you Gillian. You'll always be my "inspiration"!!

Blessings,

Joyce Jallo

Dear Somerset Primary Care Trust,

I'm writing this in regards to Gillian McCarthy. I've had the pleasure to be a part of a team at mcs-international.org and have got to know her. Her mini-bio is made public at: [http://www.mcs-international.org/meet\\_team\\_gillian.html](http://www.mcs-international.org/meet_team_gillian.html) (please read). I have grown to love and admire her over the months. She is a true "inspiration" to all of us who suffer from Multiple Chemical Sensitivity (MCS), 38 years for her now.

I know that she began being injured by chemicals from a local Factory, that she grew up next to. Then through her fathers working conditions and "several" bad working conditions of her own. Where she was NOT properly protected from VERY bad working conditions and her health took an "avoidable" beating. She was chemically poisoned, while working hard to get her Degree's.

Now, you have neglected to take care of her medical and dental health and her housing, for the past 10 years. I hear that you are threatening her with an eviction of the shack, that she lives in. This is inhumane!!

WHAT is the matter with you? Lord help this poor neglected wonderful lady!! What is the matter with your "system" to let this travesty of justice go on, for so long? Why aren't you taking care of Gillian's basic health care needs? This is the worst ABUSE and cause of SUFFERING, I have ever heard of!!

I live in WA State in the USA and my friend Linda G., a 35 year MCSer, has at the present time 4 different medical professional's coming to her home. They're

helping her improve after her 3 week stay in the hospital last month. The State of WA is paying for ALL 4 of her professional's.

PLEASE put yourself in Gillian's shoes and take some time to think!! And give her the medical, dental and all of the health care needs, including housing. Any threat of an eviction, will do nothing but HURT her health.

So I ask, in the name of God please "help" Gillian, whom you've chemically poisoned over the years of her life. She is a highly intelligent wonderful lady with amazing beauty, "inside and out" and deserves all of the BEST available necessary care.

Sincerely,

Joyce Jallo
