Dear Sirs,

I am writing in regards to the proposed eviction notice served on Ms Gillian McCarthy of The StopGap, Shepton Montague, Somerset. Ms McCarthy is disabled by severe Chemical Sensitivity (CS), requiring a home free of chemicals, mold, and EMFs (electromagnetic frequencies). Any exposure to offending triggers sets off a cascade of severe, unmanageable symptoms. Her life is in danger and she is in critical need of appropriate housing after 10 years in this 'stop-gap' situation. The conditions under which she currently lives are deplorable, without running water and with a black swamp running under the shack. I don't believe she will make it through another winter without some change in her situation. She is too fragile to advocate for herself and therefore, I make this plea on her behalf.

I respectfully ask that you might consider interceding on her behalf to help her get to a home environment that will not kill her. For more background on Gillians scandalous case, please go to www.mcs-international.org and click on "Meet the Team", & then on UK/Somerset. Her life depends on it.

Sincerely,
Julie Genser
