Somerset
BA5 1SR

Dear Madam,

I am writing to you in support of Gillian McCarthy, The Stop Gap, Shepton Montague, Somerset, who is presently doing all she can, in very poor and rapidly deteriorating health, to resist a proposed eviction from her present accommodation. She is doing this on the grounds that the alternative accommodation being offered to her is so unsuitable that it will make her serious, life-threatening health conditions worse – with the potential to possibly even kill her.

A substantial amount of background information on Gillian's scandalous plight is now easily accessible via several web pages at our web site from the following links:

http://www.mcs-international.org/meet_team_gillian.html

and...

<http://www.mcs-international.org/news.html>

Please note that, for your edification and your convenience, the latter web page contains a link to a downloadable PDF document which gives a fairly extensive and excellent background to the whole reprehensible debacle surrounding Gillian's extremely longstanding and, quite frankly, utterly scandalous situation.

I urge you to please do whatever you can to help Gillian. Her very life is now at stake.

Yours sincerely,

Gordon D McHendry
Founder & Campaign Coordinator
MCS International

Bringing the hidden dangers of modern synthetic chemicals out into the Light worldwide.

This letter was also sent to 18 of the contacts given in Gillian's Background Document at: <http://www.mcs-international.org/news.html> Permission is given to repost this PDF letter.
